Subject: Formal complaint: Serious report re smart meters 2

This is to report a 2 bad experiences with Smart Meters:

Today I went to Marianna Hartsong's house today (see my next email report) to photograph the strange eggs her hen's just laid. They are always green and brown, but she has had 2 that are suddenly white and they have funny small hard bumps (see attachments). This is about a week after the smart meters were installed all around her a. She asked me to get this out as she is feeling unable to do this at this time! Genetic changes already?

As for me:

UTILITY COMPLAINT FORM

Today I visited my friend Marianna Hartsong whose house is literally being attacked by the smart meter frequencies of her closely surrounding neighbors. By the time I left 40 minutes later, I was shaking, disoriented and weak. After using something's I had at home to try to change my reactions, I calmed down in an hour. Later I went out to do errands. I stopped in at Curves in Sedona to see about joining. As soon as I walked in I started to feel strange. In about a minute I realized it must be a smart meter...well I left in about 3 minutes, felt very dizzy and disoriented. Fortunately I had only 2 blocks to drive. For the last 3 1/2 hrs I have felt nauseous, dizzy, very disoriented and weak again. Nothing seems to help. It turns out a friend checked their meters out and on the other side of the wall are 6 activated smart meters! Please tell me how to shield myself from these terrible energies! There is no where to go or hide from them and all your collecting devices have not even been installed yet. What a nightmare. I ask the ACC to address this issue and get back to me. We are all going to be very very sick. I still feel terrible and couldn't work the rest of the day. I have opted out but what about everyone else?
